Scientific Sessions Planning Committee Welcome

On behalf of the entire 2013 Scientific Sessions Planning Committee, Co-Chair Nancy Radoslovich and I welcome you to the 39th Annual ASPSN National Convention. Plastic Surgery Nursing: A Profession and a Passion. We are positive that this year’s combination of instructional courses, general sessions, and hands-on learning will meet or exceed your convention expectations. We hope you will take full advantage of the education, camaraderie, and the chance to learn from your contemporaries during your stay here in beautiful San Diego. This year’s convention promises to bring new topics to the education curriculum: innovative nursing techniques; pertinent product information; and two unique workshop offerings for everyone across the plastic surgery nursing spectrum.

The 2013 Scientific Sessions Planning Committee perceives the San Diego convention as a gathering where attendees can learn from the best resources available within our Society and, moreover, our profession. We have focused on the aesthetic, reconstruction, and management specialty areas of plastic surgery nursing interests and have provided you a three track system of concurrent educational opportunities. Through collaborative collegial, the planning committee has seized every opportunity obtainable to showcase the most up-to-date plastic surgery nursing techniques and skills, practical management experience, and evidence-based understanding of our field in order to further your knowledge during this convention.

It takes many people to set forth an education meeting such as ours. Therefore, I would like to warmly thank each track chair and planning committee member on the 2013 SSPC for their contribution to this year’s Scientific Sessions Program Planning. Each participant put in an extraordinary year of seeking and securing respected and well-sought after speakers. Each committee member worked diligently cultivating relevant and exciting content material for the 2013 program. The track chairs did a great job developing evidence-based plastic surgery nursing topics for the reconstruction and pediatric nurse; pursuing industry leaders to share their professional insight with the plastic surgery nurse manager and OR personnel; and worked assiduously to garner expert clinicians and practitioners to share their pearls of practice know-how. The Aesthetic Track also pioneered and coordinated the innovative and highly sought after Cadaver Head pre-convention workshop in order to bring state-of-the-art training to North America’s most premier ASPSN meeting.

Frankly, in addition to the commitment of the SSPC, I would be remiss if I did not let you in on the secret to the true success of the SSPC. Truly, the SSPC could not do what it does without the assistance of the ASPSN National Office. They make sure we stay connected, coordinated, organized, and focused on the task at hand. They also safeguard that we have crossed the T’s and dotted the I’s. We graciously thank them for ALL they do for the ASPSN!

One last detail of interest for this year’s meeting. The 2013 ASPSN Fun Run on Sunday evening is our ASPSN Pay it Forward community project Operation Home Front. Please join the SSPC as we lace up our running shoes to support our own wounded warriors. Even those who do not participate in the run, we encourage you to reach into your purse to help fund Operation Home Front. We graciously thank our local San Diego host and liaison, Candace Filippin, for identifying this most noteworthy organization in order to say “thank you,” and to back up our words with an action that really makes a difference to our wounded U. S. military men, women, and their families.

Lastly, after so many incredible years, the San Diego meeting marks the completion of my chairing the SSPC. Thus, Nancy Radoslovich will be assuming the 2014 SSPC Chairship at the close of this meeting and will look forward to greeting you in Chicago, October 10-13, 2014 for ASPSN’s 40th Anniversary Meeting. We wish Nancy, Godspeed and good luck!

In conclusion, our host city, San Diego, is anything but ordinary, nor is our 2013 ASPSN meeting. Therefore, be certain to fully engage in your 2013 meeting and remember San Diego embraces diverse cultures, premier dining, shopping and entertainment. This is a city where one will find a truly eclectic blend of food, fun, and culture set amidst a temperate climate and rare natural beauty. It is a city where the extraordinary is commonplace... So, ENJOY!

We earnestly wish you a great convention and hope you enhance your plastic surgery nursing profession through the 2013 education offerings... Be sure to come and introduce yourself to me, the SSPC, and ASPSN board members. We would greatly enjoy meeting you!

Warm regards,

**ASPSN Special Events**

ASPSN Community Service Project
The mission of Operation Homefront is to assist America's military service members and their families when they have needs associated with their military service. Since 2002, Operation Homefront has met the needs of more than 74,000 military families nationwide and invested $128 million of funding in programs to support them. Much like the military, they have a "no man left behind" attitude to help every possible family and wounded warrior who sacrifices so much for the freedoms we enjoy. Please join us on Sunday, October 13 at 6:00 pm for the ASPSN Fun Run/Walk. The money our society raises will be donated to Operation Homefront. If you have a lot of fun, you will also make a huge difference in service member's lives. Thank you for helping to share the power of a wish. You have given the gift of hope, strength and joy. You will receive an ASPSN Fun Run t-shirt for your participation in the Event.
